

**Bioarchaeology Seminar Series
Michaelmas Term 2021**

Mondays, 12:00-13:00, Remotely via Microsoft Teams

Teams link for all sessions:

<https://teams.microsoft.com/l/meetup-join/19%3a4890e8bbbb9e4dbd88981685cd341334%40thread.tacv2/1631807090903?context=%7b%22Tid%22%3a%22cc95de1b-97f5-4f93-b4ba-fe68b852cf91%22%2c%22Oid%22%3a%22e28d8f0f-7378-413e-8e24-931e77b8c497%22%7d>

Week 1 – 11 Oct*

Tuuli Kaaso, PhD Fellow, University of Copenhagen

"Books & Bees - Archival Material as a Biomolecular Resource"

*** The beginning of term Diet Lab meeting typically held during Week 1 will now be held as part of the department's new bi-weekly Isotope Lab meetings (10:30-11:30, first meeting 21 Oct)**

Week 2 – 18 Oct

Elissavet Ganiatsou, PhD candidate, Democritus University of Thrace

"The investigation of the diachronic pattern of breastfeeding in ancient Thessaloniki through the analysis of incremental dentine"

Week 3 – 25 Oct

Dr. Angela Trentacoste, Post-doctoral Researcher, University of Oxford

"Zooarchaeological and isotopic evidence for animal production in late prehistoric and Roman Italy"

Week 4 – 01 Nov

Silvia Soncin, PhD candidate, University of York

"Diet at AD 79 Herculaneum through compound specific stable isotope analysis"

Week 5 – 08 Nov

Dr. Alice Rose, Research Associate, University of Cambridge

"Reconstructing life in Medieval Cambridge using socially contextualised isotopic analysis"

Week 6 – 15 Nov

Dr. Jack Dury, Stockholm University

"Dealing with reservoir effects in human and faunal skeletal remains"

Week 7 – 22 Nov

Eleanor Green, PhD Researcher, University of York

"Dredging up Genomes: the mysterious crania of the River Thames"

Week 8 – 29 Nov

Dr. Hazel Reade, Research Associate, University College London

"Pleistocene Nitrogen Isotope Variability: Baselines, Isoscapes and the Archaeological Record"
