Archaeology around the world from all regions and periods.

The seminar series coordinators of Eurasian Archaeology, Barbarians Prehistory, Archaeology of the Middle East, and Americanist Archaeology Seminar Series have joined forces to form a new, broad seminar series: World Archaeology. Reaching beyond the traditional topics of these former series, World Archaeology hosts seminars without temporal or spatial boundaries and provides a platform for archaeologists from around the globe. Our aim through World Archaeology is to provide a wide-ranging weekly seminar that promotes a variety of topics. Please see below to get involved or suggest a speaker.
