

Research Laboratory for Archaeology and the History of Art

Climate and Chronology Group

Term Card – MT 2018

Lecture Theatre, 1 South Parks Road, Tuesdays 12-1 pm

NEW THIS TERM! At the end of each session, please share a sentence on what you have been working on this week so that we better get to know one another. Very brief lab updates are encouraged.

Week 1 – 9TH OCTOBER

WELCOME BACK PUB LUNCH AT THE TURF TAVERN

Get to know one another better with drink + food + informal discussion. Please respond to the email sent around, or email organisers, to allow a rough estimate on number of attendees for reservation. Meet at SPR1 entrance at 12 pm for 12.10 pm reservation

Week 2 – 16TH OCTOBER

RACHEL HOPKINS | PhD candidate & PDRA | RLAHA, University of Oxford |

A matter of time - tracking early modern human migrations into Europe (55,000-35,000 cal BP)

Week 3 – 23RD OCTOBER

DR. MARINE FROUIN | Research fellow | RLAHA, University of Oxford |

What we do in the shadows: an overview

Week 4 – 30TH OCTOBER

LORENA BECERRA-VALDIVIA | PhD candidate | RLAHA, University of Oxford |

Tracking early human presence in North America and Beringia during the late Pleistocene using Bayesian age modelling (Confirmation of status presentation)

TANSY BRANSCOMBE | PhD candidate | RLAHA, University of Oxford |

Integrating biochemical and zooarchaeological approaches to the seasonality of Japanese hunter-gatherers (Transfer of status presentation)

Week 5 – 6TH NOVEMBER

RICHARD CLARK-WILSON | PhD candidate | Geography, Royal Holloway, UoL |

Chronologies and palaeoenvironments of humid phases in the western Nefud Desert, Saudi Arabia

Week 6 – 13TH NOVEMBER

ANNA CUTMORE | PhD candidate | Geography, UCL, UoL |

Reconstructing abrupt climate changes of the deglaciation and Holocene: pollen and biomarker analyses from the Iberian Margin

Week 7 – 20TH NOVEMBER

DR. PAUL ALBERT | Research fellow | RLAHA, University of Oxford |

Title TBC; talk will be on the theme of tephra, chronology and volcanism

Week 8 – 27TH NOVEMBER

DR. DAVID CHIVALL | Chemistry laboratory manager | RLAHA, University of Oxford |

Using radiocarbon to identify poached ivory being sold in the EU ivory antiques market
